

The University of Tokyo Institute for Future Initiatives and the Toyota Foundation "Interlinkages and Innovation for Future Societies"

Recruitment Information for Project Researcher or Project Assistant Professor (Fixed-Term Project Staff)

The University of Tokyo Institute for Future Initiatives and the Toyota Foundation are establishing a new partnership programme under the theme of "Interlinkages and Innovation for Future Societies" and wish to recruit researchers who will conduct research to transform social systems. The flagship projects of the Institute for Future Initiatives are 1) Designing visions of the future in an AI society, 2) Designing a regional circular and ecological sphere (Regional CES), and 3) Research on security and peacebuilding in future societies. The partnership programme "Interlinkages and Innovation for Future Societies" is a new activity to design better future social systems by considering new developments in these flagship projects with an awareness of the "connections" among people, between people and nature, and between people and goods and technologies. In this partnership programme, we hope to make further progress in each flagship project by conducting research together with researchers within the university who are engaged in each project, and we also aim to nurture outstanding professionals who can lead transdisciplinary research.

1. Job title : Project Researcher or Project Assistant Professor (Fixed-Term Project Staff)

2. Number of persons to be recruited : 3 (Expected)

3. Place of Work : Institute for Future Initiatives, The University of Tokyo,
