ドリス・ルフムシ (UNIDO 現地コーディネーター)

My name is Driss Lkhousi, I am Moroccan, aged 49. I obtained a master's degree in engineering in agri-food industries in 2000 and I am currently preparing a master's thesis in international business. Since 2000, I have worked for the public and private sector and also in the implementation of projects within international organizations in sectors such as consumer goods trade, Food security and Food safety, architectural and urban studies, vocational education, development of horticultural value chains and poverty alleviation, management of natural resources and the preservation of biodiversity, communication, advanced regionalization and governance. Internationally, and since 2019, I have contributed to the implementation of projects related to infrastructures implementation, cash transfer management and community mobilization, value chain development, poverty alleviation and economic women empowerment in the Central African Republic, Democratic Republic of Congo, South Sudan, and the evaluation of other projects as well as the design of new projects in Burundi and Madagascar.

ブルス・キャランガリルワ (UNIDO バイオエタノール製造専門家)

Bruce Lububi KYALANGALILWA was born on June 2, 1986 in Bukavu, South Kivu Province, in the Democratic Republic of Congo. A graduate of the University of Rwanda (formerly known as National University of Rwanda), Department of Biology (Subject: Biotechnology), Bruce began his career as a Research Assistant at the African Center for DNA Barcoding (ACDB) in Johannesburg (South Africa) in 2010. In 2012, He went back to DR Congo where he worked in Community Management projects with private NGOs and Companies before joining the metallurgical Department of Namoya Mining SA (a subsidiary of Banro Congo Mining). Bruce joined the UNIDO project team in July 2022 as the Bioethanol Production Expert and has contributed to the project through conducting various training sessions (HSSE, Supply chain, Production planning and operations, & Quality control management) of the beneficiaries, the preparation of the technical specifications of the production equipment, the supervision of the installation and commissioning operations of the Bioethanol Production Plant equipment. Bruce's areas of interest remain: Biotechnology, Bio-processing, Management, Leadership.
